Unity developer and tech co-founder of Sorolla. 20+ games shipped - I build the mobile-publishing SDKs, playable ads, and CI/CD pipelines that get games out the door. Self-taught in Unity & C#, from indie passion projects to hyper-casual work at Ubisoft/Ketchapp.

// EXPERIENCE

Technical Co-Founder · Sorolla 2024–now

Mobile-publishing infrastructure for Unity: publisher SDK, analytics, iOS ATT, ad-network and playable-ad pipelines. Maintain the public Sorolla Palette SDK; shipped Happy Snake 3D to App Store & Google Play.

Senior Unity & Full-Stack Engineer · YourArt 2024

Optimized Unity WebGL galleries (smaller builds, faster loads); shipped frontend, backend/API and Unity-integration features across auth, search and admin.

Lead Unity Developer · Yumon 2023

Led Unity for a play-to-earn multiplayer game with NFT avatars - gameplay, leaderboards and third-party SDK integration under App Store constraints.

Chief Technology Officer · CARFT 2022–23

Built and led the stack for a Web3 NFT car-collectibles game; rebuilt a Unity prototype into a full-stack multiplayer system; mentored junior developers.

Gameplay Programmer · Ubisoft / Ketchapp 2019

Hyper-casual Unity prototypes and production integrations; SDKs, ad networks, analytics and reusable tooling for rapid soft-launch cycles.

Game Developer · Celsius Online 2018–19

Features and production fixes on live mobile games with large user bases; C++, ActionScript, C#, NodeJS and platform-specific work.

Independent Game Developer · Bretzel Studio 2015–now

Rody & Mastico remaster + level editor with a rebuilt 1987 voice-synth (featured by Bob Lennon & Benzaie). Doge To Mars - 10K+ installs, 4.5★, solo. Teach Unity through course projects.

// SELECTED WORK

Sorolla Palette SDK

Unity mobile-publisher SDK.
github.com/sorolla-studio/sorolla-palette

Happy Snake 3D

Sorolla mobile game - App Store & Google Play.

Unity CI/CD Template

GitHub Actions · GameCI · Fastlane · Firebase.
github.com/LaCreArthur/unity-fastlane-ci

Rody & Mastico Collection

Unity remaster + level editor.
